WORK EXPERIENCE

Freelance developer

October – to date

Junior Front-end Developer

CODEPLAY UG

From: 1ST June – 30th Sept 2024

IT and Communication officer (Volunteer)

Uganda Network of Aids Service Organizations (UNASO)

From: 1ST May – 3rd Nov 2023

PROJECTS

I Co-developed a digital evidence preservation system using flask, HTML, CSS, SQL, and BOOTSTRAP which used block chain like technology to ensure digital evidence is not tampered with

Developed a Visa application system (web application) using HTML, CSS, BOOTSTRAP, SQL and PHP which allows users to apply for visas, check status and also be notified on the results

Built a prototype desktop application for a bus company using Visual basic which would allow users to book bus tickets and would stop issuing if there are no available buses or seats

I co developed a Ride hailing app on the frontend using React Native, Typescript, Tailwind CSS which gave me a lot of experience in state management using Context API and mobile development as a whole.

Developed an Animator's repository which worked as his portfolio as it stored all his work. I used Next.js, typescript, Tailwind CSS and Rive
