LinkedIn: [www.linkedin.com/in/luyinda-reagan](https://www.linkedin.com/in/luyinda-reagan)

GitHub: <https://github.com/reaganluyinda>

## **SUMMARY**

Full-Stack Developer with hands-on experience building web and mobile applications using React, TypeScript, Next.js, and Node.js / Express.js. Strong background in UI development, API integration, and modern frontend tooling. Experienced working in Agile teams and delivering real-world projects as a freelancer and intern. Passionate about scalable systems, clean code, and continuous learning.

## **TECHNICAL SKILLS**

Languages: JavaScript, TypeScript, Java, PHP

Frontend: React.js, Next.js, React Native, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools: Git, GitHub, Visual Studio Code

Other: REST APIs, Agile/Scrum, Context API, Responsive Design

## **EXPERIENCE**

### **Freelance Developer- Sole labs**

April 2025

Design and develop responsive web applications for clients

Implement modern UI using React, Next.js, and Tailwind CSS

Collaborate with clients to translate requirements into technical solutions

Maintain clean, reusable, and well-documented codebases

### **Junior Frontend Developer — Codeplay UG**

June 2024 – September 2024

Built reusable and responsive UI components using React and TypeScript

Integrated frontend applications with backend REST APIs

Worked with Git and GitHub in a collaborative Agile environment

Improved application usability through consistent design and component optimization

#### **IT & Communication Officer (Volunteer) — UNASO**

May 2023 – November 2023

Supported IT operations and internal communication workflows

Assisted in implementing digital tools to improve organizational communication

Contributed to communication strategy planning and execution

### **PROJECTS**

#### **Church Connect Web App**

Designed and implemented using Next.js, Node.js, Express, and MongoDB

Built features for church profiles, ambassador profiles, authentication and responsiveness

Implemented role-based access control and secure authentication

#### **Desserts E-Commerce Web App**

Developed a modern e-commerce web application using React, TypeScript, and Tailwind CSS

Implemented product listings, shopping cart functionality, and responsive UI

Focused on performance optimization, accessibility, and reusable component architecture

Implemented state management using Context API

#### **Visa Application Web System**

Developed a full web application using PHP, MySQL, HTML, CSS, Bootstrap

Enabled visa application submissions, status tracking, and notifications

#### **Ride-Hailing Mobile App (Frontend)**

Contributed to the frontend using React Native, TypeScript, Tailwind CSS

Gained hands-on experience with state management using Context API

#### **Animator Portfolio Repository**

Built a modern portfolio using Next.js, TypeScript, Tailwind CSS, and Rive

Focused on performance, animations, and clean UI presentation

## **EDUCATION**

Bachelor of Information Systems and Technology (BIST)

**Makerere University**

## **TRAININGS**

Graphics Design Workshop (Adobe illustrator, Canva)— **Rana Labs**

Company Communication Workshop (Organizational communication strategy, Internal communication best practices) — **CSSA / USAID**

Currently doing the FullstackOpen —**Helsinki University**
